STEP 01

From each sheet of patterned paper, trim a 3.5 x 4 inch rectangle. You may want to use a tearing ruler on the top edge of some of these to give the rolls more dimension. If you do so, use the tearing ruler on the top edge before you trim the paper to size.

STEP 02

For each paper roll, do the following: Place adhesive along one of the 3.5 inch edges. On the opposite edge from the adhesive, begin rolling the paper. Keep rolling until you've reached the adhesive. Roll onto the adhesive, and run your finger along the edge gently to seal it.

STEP 03

Cut a sheet of 8 x 10.5 inch white cardstock. Using a corner rounder, punch the top left edge.

STEP 04

On the seam side of each paper roll, apply adhesive. Place the rolls on the bottom portion of the white cardstock. Gently press on the rolls with your fingers to secure. Wrap a length of twine around the rolls, tying on top of the rolls.

Use up those scraps of patterned paper to create this fun element on a layout or a card!
