STEP 01

Cut 8 pieces of your selection of patterned paper to 2.75x3.5". If you'd like to stamp a piece of cardstock, choose a light color and cut to this size as well. Note: You only need 8 pieces because where the 9th would be placed, the peach cardstock will be placed in that area.

STEP 02

For the Alphabet & Grid backgrounds, stamp using versamark ink onto small piece of cardstock.

STEP 03

Sprinkle stamped area with Zing Powder, discard excess, then melt with heat tool.

STEP 04

Using the ink blending tool, press into ink pad, then onto stamped image rubbing ink in a circular motion. Add in other colors as desired.
